

Application for Certificate of Eligibility (CoE)

This guide is for prospective students who fall under both following two conditions.

1. Those who have passed the entrance examination for the Graduate School of the Frontier Sciences.
2. Those who live outside of Japan at the time of acceptance and do not have a Japanese resident status.

If you are considering enrolling in the Graduate School of Frontier Sciences, you need to apply for a Certificate of Eligibility immediately after the final announcement of your acceptance on February 13th, 2024. Please read the following application procedures in advance and prepare accordingly as the period between the date of the acceptance announcement and the deadline for submission is very short, especially for those who enroll in April. We will inform eligible individuals of the deadline for submitting the applications for CoE separately after the announcement of acceptance. Please do not send us any documents until then.

To obtain a "student" visa, you must first apply for a CoE.

The Graduate School of Frontier Sciences can apply on your behalf only for obtaining your student visa. You will need to apply for all other types of visas on your own. After the acceptance announcement, in accordance with the application timing, the Student Affairs Team will send an email to successful applicants with foreign citizenship regarding the detailed procedures for the CoE application. Please note that it will take approximately 2-3 months for the CoE to reach you.

[When to apply for the CoE]

Those who enroll in April: Immediately after the announcement of acceptance

Those who enroll in October : Usually sometime in July
